3. The above figures are satisfactory, showing that during the latter part of the period there has been a material decrease in the number of workhouse inmates in comparison with the number at the corresponding period of last year, accompanied by a small increase only in the number receiving out-door relief.

4. The next table exhibits the fluctuation for twenty years past of the number on out-door relief.

Thus on the last Saturday of February the total number of persons receiving relief out of the workhouse under the 1st section has increased from 30,928 to 31,496, a difference of 568; there is an increase of 355 in the class of "permanently disabled," and of 276 in class of "widows with two or more legitimate children;" but a decrease of 63 in the class of "persons disabled by severe sickness or serious accident."

5. We here subjoin a tabular statement showing the number of "night-lodgers," a term corresponding to "casuals" in England, for the past twelve months, in continuation of a similar table in last Report.

The reduction in the number of night-lodgers or casuals is remarkable, and was occasioned, no doubt, in some degree by the practice recently introduced of a member of the Constabulary Force attending at the workhouse on the daily discharge of this class of inmates, which practice arose out of a correspondence which terminated in the issue of a circular to Boards of Guardians on the subject, which will be found in our last annual Report.\*

6. As part of the statistics which are brought up very nearly to the date of this Report, the following table exhibits in the accustomed form:

The total number of deaths in the workhouses in the fifty-two weeks comprised in the table has been 11,333. In the corresponding table in the last Annual Report the total number of deaths was 11,119, showing that there has been an increase of 214 deaths, as compared with the number last year, and a decrease of 468 as compared with the number in the preceding year.

\* Report for 1875, page 48.

The number of deaths by fever is 703 in comparison with 762 in the previous year, and with 663 in the year preceding.

The deaths from small-pox in the workhouse hospitals were 41 in comparison with 142 in 1874-5, and with 110 in the preceding year. The subject of small-pox in 1875 will be more fully dealt with in the Medical Charities branch of this Report.

7. We now continue the series of recent statistics by repeating with one additional year the table showing the number of persons assisted by Boards of Guardians to emigrate, and the cost incurred for that purpose in each year, that is to say, for now twenty-six years past ended on the 25th of March.

11. We now proceed to the statistics arising out of the accounts of the unions for the year ended 29th September, 1875.

We deal in the first place with that part of the Union expenditure which relates exclusively to the relief of the poor, of which the following table affords an abstract for all Ireland, for the year ended 29th September, 1875, in comparison with that for the year which ended on the same date in 1874.

Year ended 29th September.	Net Annual Value.	Poor-Rate levied.	Poor Relief Expenditure during the Year.						Numbers relieved.			
			In-Maintenance and Clothing.	Out-Relief.	Cost of Relief to Blind and Deaf and Dumb Asylums and Asylum Hospitals.	Scholarships and Bursaries of Officers.	All other Expenditure.	Total.	In Workhouses.	Out-door.	In Blind and Deaf and Dumb Asylums.	Total.
1874.	£12,468,600	£30,377	£16,172	£4,775	£8,299	£26,678	£26,541	£71,593	214,099	66,714	613	281,316
1875.	£12,449,503	£41,222	£37,364	£3,858	£8,401	£26,769	£30,581	£117,581	233,355	66,332	633	320,360
Increase.	£20,003	£10,845	£21,192	£1,083	£502	£1,091	£4,040	£45,988	18,256	318	50	39,004
Decrease.	—	—	—	—	—	—	—	—	—	—	—	—

From the above table it will be seen that there has been a decrease of £41,772 in "in-maintenance and clothing," £11 in cost of

"deaf and dumb and blind," £1,094 in "salaries and rations of officers," and of £4,040 in "all other expenses," but an increase of £1,189 in "out-door relief."

12. The following is a statement of the Parliamentary Grant for Medical and Educational purposes, and of its distribution for the year ended 25th March, 1875 :—

				Amount Claimed and Granted for the Year.		
				£	s.	d.
Medical purposes,	.	.	.	69,962	10	8
Educational purposes,	.	.	.	8,745	19	4
Total,				78,708	10	0

The total amount claimed and allowed under the Parliamentary Grant for the year ended March, 1875, namely, £78,708 10s., is £2,396 5s. 5d. in excess of the claim for the previous year, and arises chiefly from increases of salary.

13 Statement of the Annual Collection and Expenditure of Poor Rates for twenty-two years, ended on the 29th September, 1875; showing the Net Annual Value of Property rated, the Amount of Poor Rate collected, and the Expenditure under the Poor Relief and Medical Charities Acts, &c., for each year ended 29th September, from 1854 to 1875, inclusive.

Year ended 29th September.	Net Annual Value of Property rated.	Amount of Poor Rate collected.	Expenditure for Relief of the Poor.						Expenditure under Medical Charities and Friendly-Society Acts.	Expenditure under the Education Act.	Expenditure under the Public Health Acts, passed by the Poor Rates.	Expenditure under the Poor Law Amendment Act.	Expenditure under the Sanitary Acts.	Exp. made by the Local Finance Act.	Expenditure under the Poor Law Amendment Act.	Total Expenditure.	Percentage of the Rate invested in Valuation.			
			In-Home-Relief.	Out-Home-Relief.	Exp. for the Poor, not in-Home-Relief.	Sectarian and Religious or Charitable.	Other Expenditure.	Total Poor Rate Expenditure.									Poor Relief.	Total.	Sectarian.	Other.

Hence it will be seen that the total expenditure of poor-rates for all purposes, viz., relief, medical relief, burial grounds, registration of births, deaths, and marriages, sanitary measures, and expenses under Superannuation Acts was in 1874 £1,001,989, making a poundage of 1s. 6d. on the valuation. In 1875 the expenditure for all purposes was £975,044, or 1s. 5½d. in the pound, showing a decrease of £26,945, notwithstanding that the sanitary expenditure was £25,016 more than in 1874.

#### MEDICAL CHARITIES ACT, AND VACCINATION ACTS.

14. We next submit to your Grace the report of our proceedings under these Acts of Parliament for the year ended 30th September, 1875.

The subjoined table exhibits in the usual form the progress and fluctuations of the medical relief afforded under the Medical Charities Act for each year of the twelve years ended 30th September, 1875, in each province, and for the whole of Ireland.

The cases are distinguished, as usual, into those prescribed for at the Dispensaries, and those attended at the patients' houses, each class of cases occupying a separate column.

The difference in the years 1873-4 and 1874-5 is thus made up in the four provinces—

In Ulster there has been an increase of 1,479 cases at the Dispensaries, and an increase of 7,699 of those attended at the patients' houses.

In Munster there has been a decrease of 2,565 cases at the Dispensaries, and an increase of 2,875 of those attended at the patients' houses.

In Leinster there has been a decrease of 1,406 cases at the Dispensaries, and an increase of domiciliary cases of 967.

And in Connaught there has been a decrease of 3,005 cases at the Dispensaries, and an increase in the number of cases attended at the patients' homes of 983.

The three last columns in the tables show for the totals of all Ireland a decrease for 1874-5 of 5,497 Dispensary cases, and an increase of 12,524 of the more serious cases attended at the homes of the patients, giving a total increase, including both classes of cases of patients, of 7,027 cases for 1874-5, compared with the previous year.

#### VACCINATION.

15. In the following table are shown the number of cases of vaccination in each year from 1853 to 1875; the compulsory Act having been passed in 1864:—

For the last four years returns have been made by the Dispensary Medical Officers of the vaccinations under the Compulsory Vaccination Act, distinguishing the cases of infants under one year old from those of children of more advanced age.

These returns are given in the next table.

Total, . . . . .	94,370	25,305

16. The following table contains a summary of the total number of cases of vaccination during the year ending 30th September, 1875, in each of the four provinces, the cases being classified under the headings, "under one year old when vaccinated," "above one year old," and "other persons."

PROVINCES.	Children Born since 1st January, 1864.		Other Persons.	Total.
	Under one year old when Vaccinated.	Above one year old when Vaccinated.		
Ulster, . . . . .	33,353	3,535	1,155	38,043
Munster, . . . . .	25,925	6,651	1,281	33,857
Leinster, . . . . .	21,693	3,480	391	25,564
Connaught, . . . . .	13,399	11,639	14,838	39,876
Total Ireland, . . . . .	94,370	25,305	17,665	137,340

The following are the totals under each of the above headings for the previous year ended 30th September, 1874:—

96,850      22,487      20,250      139,587

It will be observed that there is a decrease in the total number of cases vaccinated and revaccinated in all Ireland of 2,247 cases.

There was a decrease in cases "under one year" of age in each of the four Provinces; but there was an increase in Connaught both in cases "above one year old," and "other persons." This increase was attributable to an outbreak of small-pox in that Province.

The increase is exhibited in the following table:—

—	Children Born since 1st January, 1864.		Other Persons.	Total.
	Under one year old when Vaccinated.	Above one year old when Vaccinated.		
Connaught, 1874, . . . . .	14,405	6,612	1,365	22,382
Connaught, 1875, . . . . .	13,399	11,639	14,838	39,876
Net Increase, . . . . .	—	5,027	13,473	—
Decrease, . . . . .	1,006	—	—	—

17. The impulse given to vaccination in this year in Connaught was owing to the terror occasioned by the cases of small-pox which occurred, and the opportunity thereby afforded to the Medical Officers to extend the practice; the people of all classes willingly submitting to the operation under the influence of the temporary apprehension of contagion and death.

Similar results followed the widespread occurrence of small-pox in other districts heretofore; notably so in the Province of Ulster in 1874, when 57,861 cases of vaccination took place in that Province alone out of the 139,587 cases in all Ireland in that year.

But, however satisfactory it is to know that a certain number of persons have been themselves protected by vaccination from the disease of small-pox, and, so far from being a means of conveying the disease to other persons, it is not to such exceptional and spasmodic efforts that the public should be indebted for protection.

The complete vaccination of the population should be secured by sustained and continuous attention on the part of the Registrars of Births, Medical Officers of Dispensary Districts, and the several Committees of Management, and by Boards of Guardians, who are responsible for directing proceedings to enforce the provisions of the Vaccination Acts, and lastly, and mainly, by a firm administration of the law by the Magistracy, who are apt to show excessive leniency in dealing with these particular cases.

A provision is made by the 58th section of the Public Health Act, Ireland, 1874, to enable any Justice of the Peace to make an order for the vaccination of any child under the age of fourteen who has not been successfully vaccinated, nor has had the small-pox, upon information of the facts being given to him by any Registrar, or Officer appointed by the Guardians to enforce the provisions of the Vaccination Acts; but it does not appear that this power has been exercised hitherto, or, at all events, not to any extent.

#### SMALL-POX.

18. The number of deaths in Workhouses from small-pox, and the number of cases of the disease treated by Dispensary Medical Officers for each of the last twelve years are given in the following table:—

Total Ireland, . . .	239	225	68	11	543

The returns of the Registrar-General exhibit an increase in the deaths by small-pox from 540 in 1874 to 543 in 1875.

19. The most serious outbreak of the disease during the twelve months was in the province of Connaught, where 674 persons out of the whole 881 treated by the Dispensary Officers in Ireland were attacked; the disease prevailing in the most virulent form in the Unions of Claremorris, Loughrea, Swineford, Tobercurry, and Tuam.

CON-  
NAUGHT.

The disease had existed in the Swineford and Castlebar Unions more or less in the year 1874, but the first case which was reported in the Tuam Union in the year 1875 was on January the 10th, when the Medical Officer of the Workhouse furnished the particulars of the case of "a traveller" from Mullingar, who stated that—

Tuam  
Union.

"On his way towards Athlone he went into a cabin about six miles off, where he remained for two hours, and that there was a child there who had an eruption similar to what he laboured under."

He remained two nights in Dunmore, and from thence came the next report of a case, namely, on the 16th January.

The disease soon extended its ravages to Tuam, where 88 persons were attacked.

In the Ballinrobe Union, where there were 22 cases, the infection was reported to have been brought by the family of "an itinerant pedlar and tinker," from the Ballina Union.

In Castlerea Union, where there were 20 cases, it was stated that the disease was brought "by a tramp."

In the Claremorris Union, where there were 103 cases, the disease being more or less prevalent during the whole of the twelve months, the Medical Officer of the Ballyhaunis Dispensary District stated that he had no doubt that "inoculation" for small-pox had been practised in the District, and that he had no doubt but to that practice the importation of the disease might be entirely attributed there.

The Medical Officer had taken active steps, so far as he could, to prevent the spread of the disease, having—

"Supplied disinfectants, reported the matter to the Guardians, had the houses limewashed, and the yards cleaned up, and having on all available occasions cautioned the people against frequenting or attending 'wakes' in infected localities, and caused the speedy interment of the bodies of persons who died of the disease."

He also "re-vaccinated over 600 persons with manifest advantage; those neglecting this precaution being in many instances struck down with the disease in the midst of, and to the exclusion of other members of the same family who had lately undergone the operation."

Dr. Roughan, the Inspector in charge of Unions in the county of Sligo, in reporting in April, 1875, on the question whether it was advisable that the Sligo Militia should be assembled for training, having regard to the prevalence of small-pox in certain parts of the county during some months previous, stated that—

"Small-pox of a very malignant type still prevailed to a serious extent in Tobercurry Union, and in the neighbouring Unions of Swineford, Tobercurry Union.

'20. The alarm and apprehension felt elsewhere when small-pox broke out were exemplified, however, in even a more remarkable degree in the Loughrea Union, where the disease assumed its largest proportions during the two last quarters of the year ending 30th September, 1875.

On the 1st of March, 1875, the Medical Officer of the Athenry Dispensary District, Dr. Leonard, reported that a very bad case of small-pox had come into the District from Tuam the day before, and that the following was the history of the case:—

" William Burke, aged about 23 years, a native of Newcastle, in this Dispensary District, took ill on Saturday, the 27th of February, in Tuam, where he was employed as a baker's assistant. He was visited by Dr. Turner on Monday, who ordered his immediate removal to hospital; as also that his bed and blanket should be either disinfected or destroyed; but instead of complying with the Medical Officer's instructions, he was conveyed by midday train to Athenry, where he arrived at about 12 o'clock, being exceedingly weak, and suffering from dreadful gastric irritation since he left Tuam. He had to remain in a house in Athenry for some hours, when a car was procured, and the poor sufferer conveyed to his father's residence, a distance of about six miles. I visited him at about 9 o'clock, P.M., and gave full instructions to his friends."

To the introduction of this case into the Athenry District may be attributed the attack of 171 persons (five of them being private patients), and the death of 49 out of this number.

His removal into the Athenry District from Tuam was *prima facie* a wilful infraction of the 38th section of the Sanitary Act, 1866, which provides for the infliction of a penalty not exceeding five pounds on any—

" Person with infectious disorder exposing himself, or on any person in charge of such sufferer causing such exposure ;"

and the Board at once directed their Inspector, Dr. Brodie, to make inquiry as to the parties responsible for the act.

It appeared on inquiry that Mr. P. Corcoran, the baker in Tuam, in whose house he had resided, recommended him to return home, assisted in getting him ready for the journey, took a railway ticket for him, and put him into a railway carriage; and then fearing, as it was stated, detection by the Constabulary, immediately left the station and went away.

The particulars having been reported to the Government the Board were informed that the Attorney-General had advised that Mr. Corcoran should be proceeded against as had been suggested by the Board; and this, after some unavoidable postponement, was done, and Mr. Corcoran was fined £2 10s., or in default sentenced to one month's imprisonment.

William Burke died at his father's house shortly after arriving there; and the next four cases reported in this District were those of the father of William Burke, the Rev. Mr. Walsh, R.C. Curate,

who had attended his dying bed, a member of the family of Dr. Leonard, and the Parish Clerk.

The Rev. Mr. Walsh was taken ill in "Kineen's Hotel," Athenry, and died there on the 29th March, the hotel having in the meantime been compulsorily closed in pursuance of the 89th section of the Sanitary Act.

Several fresh cases were then reported, and the Board of Guardians were requested to provide hospital accommodation for the treatment of persons labouring under the disease.

The Board of Guardians, on the 17th April, ordered an iron hospital, capable of accommodating 12 patients, from a firm in London, but very great difficulty was experienced in obtaining a site whereon to place the hospital, partly from the unsuitability of some of the sites proposed, and partly to the determined and violent opposition exhibited by persons in the neighbourhood to the establishment of an hospital at all.

However, eventually a house was rented near Athenry and fitted up and used for the purpose, two skilled nurses having been obtained from the Cork-street Hospital, Dublin, to attend the patients; and an Assistant, Relieving, and Sub-Sanitary Officer was appointed.

21. During the excitement and alarm which arose in the neighbourhood of Athenry when the disease broke out, the Workhouse van which was being sent to convey a patient to the Hospital at the Workhouse was attacked by a mob, the horse and driver sent back, and the van itself burned, having been maliciously set on fire.

The town or village of Athenry had been described at the commencement of the outbreak as in a very filthy and discreditable condition, but steps were taken to improve the sewerage and improve the sanitary condition of the place. It had been ascertained that those portions of it that were drained some few years since had escaped the disease, while the streets that were undrained had suffered severely from it.

On the 13th June, Dr. Brodie, Local Government Inspector, reported to the Board that—

"The small-pox was on the decline," and that "it was to be hoped that with close attention to whitewashing, cleansing, and disinfecting the houses, together with the supply of clothes, bed-ticks, and fresh straw given to the patients leaving Hospital, through the benevolence of a few charitable ladies who had raised a fund for the purpose, the disease would soon be got under;"

and on the 1st of August Dr. Brodie reported that no one had been attacked in the town during the twenty-two days previous to that date.

The correspondence relating to the outbreak of small-pox in the Loughrea Union has already been printed, in obedience to an order of the House of Commons, dated 13th July, 1875, and is not therefore included in the Appendix.

22. The successful prosecution of Mr. P. Corcoran, of Tuam, for Exposure, causing William Burke to be conveyed by railway to Athenry,

has been already referred to, and there was another case of prosecution for exposure without proper precaution.

Mr. John J. Dillon, of Athenry, a shopkeeper, was proceeded against for wilfully exposing himself whilst suffering from small-pox, in the street and at the Railway Station, and by travelling on the railway from Athenry to Galway, contrary to the 38th section of the Sanitary Act, 1866; and on the 31st August he was fined £3, with costs of court, or in default of payment, to be imprisoned for two calendar months in the gaol of Galway, with hard labour.

Inoculation.

The Board learned, from reports of the Constabulary and other sources, that the practice of inoculation with variolous matter to produce the disease of small-pox had prevailed to a great extent in the Toberecurry Union, as it had done elsewhere, and with fatal results in many cases, as it was apprehended; and the efforts to bring a quack inoculator, named "Charles Stenson," to justice were finally successful, he having been tried at the Sligo Assizes on the 22nd July, 1875, "found guilty of the manslaughter of Roger Gethins, by inoculating him with small-pox virus, and sentenced to five years' penal servitude."

ULSTER.  
—  
Belfast  
Union.

23. With respect to the small-pox in Belfast Union, the Inspector, Mr. O'Brien, reports as follows in his periodical accounts of the condition of the Union:—

"14th December, 1874.—I am happy to say that the small-pox epidemic which, after having almost entirely subsided, re-appeared at the commencement of the present year, and continued from that time up to August last to extend its ravages, has since then steadily declined, and can now, I trust, be pronounced to be again extinct, there being at present no cases of the disease under treatment in any of the Districts visited by me on this occasion."

"22nd June, 1875.—There are four cases of small-pox in the Hospital, but they are all of a light form and are all convalescent."

"3rd December, 1875.—Small-pox, which so long and so extensively prevailed in this Union, may be now said to have almost entirely disappeared, not a single case being under treatment between the 13th and 27th ultimo; and when I inspected the wards appropriated to the treatment of the disease, they contained only one patient, a young man of eighteen, just admitted from the town, and whose attack appeared to be of a mild type."

With the exception of the cases in the Belfast Union, the Board are happy to be able to record that but two cases have been reported by the Dispensary Medical officers, in the quarter ended 31st December, 1875, in the whole of Ireland.

## LOCAL GOVERNMENT (IRELAND) ACTS.

*Provisional Orders, &c.*

25. Since the date of our last Report we have issued the following provisional orders:—

A provisional order, dated 4th June, 1875, authorizing the Town Commissioners of Coleraine, acting as the Burial Board for the borough of Coleraine, under the Burial Grounds (Ireland) Act, 1856, to put in force the provisions of the Lands Clauses Act, 1845, in relation to the purchase and taking of land otherwise than by agreement, in respect to certain land therein mentioned, and to use the land so to be acquired for the purpose of providing a new Burial Ground for the borough of Coleraine. This order has been confirmed by Act of Parliament (38 and 39 Vic. ch. cxx.)

A provisional order, authorizing the Corporation of Londonderry to put in force the provisions of the Lands Clauses Act, 1845, with respect to the purchase and taking of land otherwise than by agreement, in respect of certain land therein mentioned (already in the occupation of the Corporation), and to use and continue to use such lands for the purpose of the Waterworks constructed by the Corporation thereon; authorizing the Corpora-

tion to borrow on the credit of the Improvement Rate a further sum of £15,000 in addition to the sums authorized to be borrowed under the Londonderry Improvement Acts.

A provisional order, dated 2nd December, 1875, authorizing the Corporation of the borough of Wexford to put in force with reference to certain Lands, Water, and Water-rights, therein mentioned, the powers of the Lands Clauses Acts, with respect to the purchase and taking of land otherwise than by agreement, and to use such Lands, Water, and Water-rights, in order to afford a supply of water to the District, and for the construction of Waterworks; also to make rates to be called "the Domestic Water Rate," and the "Public Water Rate," to borrow money for defraying expenses incurred under the order, and to make regulations to prevent waste or contamination of the water.

A provisional order, dated 31st January, 1876, authorizing the Commissioners of the township of Dalkey to put in force the provisions of the Lands Clauses Acts with respect to the purchase and taking, otherwise than by agreement, of certain lands therein mentioned, and to use such land for the purpose of certain works for the more effectual drainage and sewerage of the township; also to make a rate to defray the expenses of preparing the plans and estimate for the works and procuring the order.

26. In the following cases we have received petitions for Provisional Orders, but the proceedings have not yet terminated:—

From the Board of Guardians of Armagh Union, for power to put in force the provisions of the Lands Clauses Acts with respect to the purchase and taking of land otherwise than by agreement, with a view to proposed Waterworks for supplying the town and district of Keady.

From the Board of Guardians of Coleraine Union for similar powers, for the purpose of supplying Water to the town of Portrush.

From the Town Commissioners of Coleraine for similar powers, with a view to proposed Waterworks for supplying the town of Coleraine.

From the Board of Guardians of Dungannon Union for similar powers, with a view of providing a supply of Water for the town of Dungannon.

From the Board of Guardians of Galway Union for similar powers, with a view to providing a new Cemetery for the town of Galway.

From the Kingstown Township Commissioners for similar powers with a view to the improvement of the drainage of the township, and for various amendments of the Local Act for the government of the township.

From the Board of Guardians of Omagh Union for similar powers, with a view to proposed Waterworks for supplying the town of Omagh and adjoining places.

From the Board of Guardians of Rathdown Union for similar powers, with reference to a scheme for the better drainage of the Workhouse. (In this case the Board have been advised by

Counsel, that the order cannot be made under the Law as it now stands).

From the Town Council of Waterford for the amendment of "The Waterford Water Act, 1871" (a local Act), by exempting a district called Ferrybank from the operation of the Act.

Applications have also been received under the 19th section of the Public Health Act from the Board of Guardians of Newtownards Union, as the Rural Sanitary Authority, and from the Town Commissioners of Newtownards as the Urban Sanitary Authority for the formation of a united district, consisting of the Electoral Divisions of Newtownards and Newtownards South, which include the town of Newtownards for the purposes of the Burial Grounds Acts.

27. We have received applications from the towns of Tipperary and Arklow, with a view to the adoption of the provisions of the Towns Improvement Act in those towns. In the case of Tipperary the provisions of the 9th George IV., c. 82, were formerly in force, but no Commissioners had been elected under the Act for several years. The requisite preliminary proceedings having been all gone through, the provisions of the Towns Improvement Act were adopted, and Commissioners have been elected. In Arklow the requisite meeting of the Rate-payers under the statute has not yet been held, but the Board have issued orders and directions as required by the Act for convening such meeting.

28. By-laws have been submitted to, and approved by us for the regulation of markets and fairs in the towns of Newtownards, Maryborough, and Roscommon; for the regulation of bathing places in the townships of Killiney and Ballybrack; for the regulation of hackney carriages, and the appointment of porters in the township of Queenstown; for the regulation of common lodging-houses, other than those under the Common Lodging-Houses Acts, in the city of Limerick; and for the regulation of common lodging-houses under the Common Lodging-Houses Acts in the following Unions and towns or townships, namely, the Unions of Loughrea, Carlow, Kilkenny, Limavady, Gorey, Carrick-on-Shannon, Celbridge, Mitchelstown, Bawnboy, Cashel, Kells, Ballymahon, Strabane, Toberecurry, Lisnaskea, Mohill, Newcastle, Trim, Bailieboro', Letterkenny, Carrickmacross, Navan, Oldcastle, Callan, Omagh, Granard, Dunmanway, Belfast, Naas, Bandon, Monaghan, Athy, Antrim, Skibbereen, North Dublin, Banbridge, Edenderry, Larne, Donegal, Rathdown, and Nenagh; the towns of Belfast, Ennis, Galway, and Enniskillen; and the township of Rathmines and Rathgar.

29. Supplementary by-laws providing for the inspection of common lodging-houses by the Constabulary in accordance with the recommendation of the Board,\* have also been adopted in the following places, namely, the Unions of Loughrea, Carlow,

\* See Circular of 9th February, 1876—Appendix, C. II., No. 4, p. 60.

Limavady, Gorey, Carrick-on-Shannon, Celbridge, Mitchelstown, Bawnboy, Cashel, Kells, Ballymahon, Strabane, Mohill, Newcastle, Trim, Letterkenny, Oldcastle, Callan, Omagh, Granard, Dunmanway, Naas, Bandon, Monaghan, Banbridge, Castlecomer, Castleroa, Rathkeale, Larne, Donegal, Rathdown, Nenagh, Abbcyleix, and South Dublin ; and the towns of Ennis and Enniskillen.

30. Orders have been made and gazetted, prohibiting further interments in the burial ground of Artane, in the parish of Artane, in the county of Dublin, and subject to certain exception in the burial ground of Abbotstown, in the parish of Castleknock, in the county of Dublin, and in the burial ground of Monkstown, in the parish of Monkstown, in the county of Dublin. We have also issued licences under the 10th section of the Burial Grounds Act, in certain individual cases, authorizing, where the circumstances seemed to warrant it, interments in burial grounds which had been ordered to be closed. These exceptional cases applied to the burial grounds of Cruagh, Whitechurch, and Monkstown, in the county of Dublin, the burial ground attached to the Church of St. Mark's, in the city of Dublin, the burial ground attached to the Chapel of Ease, in the city of Londonderry, the burial ground of Killaconenagh, in the county of Cork, and the northern burial ground attached to the Parish Church of St. Anne, Shandon, in the city of Cork.

#### PUBLIC HEALTH ACT.

31. In paragraphs 32 to 40 of our last Annual Report the progress of the sanitary arrangements under the Public Health (Ireland) Act, 1874, was referred to. We place in the Appendix to this Report the conclusion of the correspondence with the Board of Guardians of Waterford Union, in which resistance to the Sanitary Orders was protracted to so late a period as 1st December, in the year 1875, when the Guardians submitted to the law rather than incur the risk of the legal proceedings about to be taken against them to enforce it.\*

The payment of the sanitary salaries is nowhere now resisted, and the expenditure on this head in the year ended 29th September, 1875, in both classes of Sanitary Districts, viz., the Urban and Rural, was £24,758, in aid of which £12,172 has already been recouped by the Treasury in accordance with the provisions of the 10th section of the Act.

During the same period the Sanitary Authorities have, for the most part, been discharging their duties satisfactorily, and with great benefit to the population situate within their respective districts, the Rural Authorities alone having expended on Sanitary purposes, apart from salaries, in the course of the year, £10,490 for supply of water, improvement of the sewcrage, and for the removal of nuisances.

32. The cost of the latter operations when not recovered from the parties proceeded against, has been charged in accordance with the statute as General expenses ; but in Rural Sanitary

Districts the supply of water and the making or improvement of sewerage has usually been provided for by a charge upon some limited area consisting of one or more Townlands, or one or more Electoral Divisions, the area being fixed, always after ascertaining the views of the Board of Guardians acting as Sanitary Authority, by a sealed order of the Local Government Board.

No less than 79 of these Orders fixing the area of charge for water supply, or sewerage, or both, have been issued in the course of the year, involving upwards of 1,200 Townlands, situate in 62 different Unions.

A detailed statement of these Orders and the several localities to which they respectively relate will be found in the Appendix.\*

33. A corresponding degree of activity has been shown by the Urban Authorities, more especially in the larger class of towns, which most readily avail themselves of such assistance as it is in the power of the Local Government Board to afford them; but in Urban Districts there is no occasion for Orders fixing the area of charge, all sanitary expenditure being chargeable by law on the Town fund or rate raised for general purposes by the Urban Sanitary Authority over its entire District. The smaller class of Urban Districts ranging from 6,000 in population upwards, to 10,000 or more, are those in which least activity in Sanitary operations has been shown by the Sanitary Authority.

In both the urban and rural class, in addition to current expenditure on water supply or sewerage, loans for these purposes have been applied for and recommended by us to the Board of Works to a considerable extent within the year ended on the 25th March, 1876.

The following is a statement of the several cases, and of the amount applied for in each case, with the date of our recommendation to the Commissioners of Public Works to grant the loan applied for.

At least an equal number of applications are now before us which have not yet reached the above stage in the process.

34. In concluding this branch of our report we beg to draw attention to a circular letter, dated 9th August, 1875, which we issued to all sanitary authorities in Ireland,\* accompanying a copy of the recent report of the Medical Officer of the English Local Government Board, detailing the experiences of the medical branch of that Board for a period of five years past, in regard to the causes of filth diseases, and to their prevention. We have in this country no corresponding means of inquiry, our Medical Inspectors being devoted, like the other Inspectors, to administrative functions altogether; and we therefore thought it desirable to distribute as many copies of that most valuable report as we could prevail upon the Lords Commissioners of Her Majesty's Treasury to permit the Stationery Office to supply us with, and upon the whole we obtained for this purpose 220 copies, which enabled us to supply one copy to each of the 203 sanitary authorities, and to reserve for our own use a supply of 17 copies, hoping by such means to promote a knowledge and consideration of the important results obtained from the researches of the English Medical Inspectors. We are enabled to say that the report so distributed has been received with satisfaction, and is likely to be of much practical benefit. We should have been glad to have sent a separate copy to each of the Sanitary Officers in Ireland, that is, to each Medical Officer of a Dispensary District.

#### DEPARTMENTAL ARRANGEMENTS.

35. Dr. MacDonnell, Medical Commissioner of the Local Government Board, retired from office on the 5th of January, 1876, receiving from the Chief Secretary's Office on that occasion, a letter which will be found in the appendix.†

A short time previously a Local Government Board Inspector, Mr. Henry Robinson, was appointed Assistant Under-Secretary of the Lord Lieutenant; and Dr. Croker-King, a Medical Inspector of the Local Government Board, succeeded to the office of Medical Commissioner, vacated by the retirement of Dr. MacDonnell.

Thus two Inspectorships were made vacant, to one of which Mr. William Armstrong, of the Chief Secretary's Office, was appointed; and shortly afterwards the vacant Medical Inspectorship was assigned to Dr. Frederick MacCabe, Resident Medical Superintendent of the Criminal Lunatic Asylum, at Dundrum.

Consequent upon these changes, Inspector W. P. O'Brien leaves the Belfast District for Mr. Robinson's late District, including the two Dublin Unions. Dr. Roughan is moved from Sligo to Belfast, to be succeeded by Mr. Armstrong; and Dr. MacCabe succeeds Dr. Croker-King at Cork; the Districts of the other seven Inspectors remaining as before.

### CIRCULARS OF INSTRUCTIONS UNDER THE POOR LAW ACTS.

#### NO. 1.—EXERCISE AND RECREATION of the CHILDREN in WORKHOUSES.

Local Government Board, Dublin,  
9th April, 1875.

SIR,

The Local Government Board for Ireland are desirous of calling the attention of the Board of Guardians to the 27th Article of the General Workhouse Regulations, relating to the exercise and recreation of the children of either sex in the Workhouse.

The following is the Regulation referred to, namely :—

ARTICLE 27.—The Master of the Workhouse may allow the paupers of each sex under the age of fifteen, subject to such restrictions as the Board of Guardians may impose, to quit the Workhouse under the care and guidance of himself, or the Matron, Schoolmaster, Schoolmistress, Porter, or some other paid officer of the Workhouse, for the purpose of exercise.

It is hardly necessary for the Board to dwell upon the importance, as regards the health of the children, which attaches to a regular observance of this Rule, under which the children may be taken out daily, or on alternate days, for exercise and for recreation beyond the Workhouse premises and grounds, for such periods as may be found convenient during the play hours or otherwise.

In a sanitary point of view, the change of air and change of scene for the children will be very conducive to their health, and a better means of freely exercising their limbs will be afforded outside the premises than exists within them.

Independently of the salutary effects in this way which a free compliance with the Regulation will secure, its systematic observance will render it necessary for the Schoolmaster and Schoolmistress, or other Officer of the Workhouse, to see that the children, when taken out to walk in the public roads and thoroughfares, are clean and neat, and tidy in their clothes and persons, and orderly in their general behaviour, and much benefit will result from the frequent recurrence of the inspection of the children.

The children will likewise be brought in contact with and be seen by persons who would not otherwise have an opportunity of observing their creditable appearance, good conduct, and suitability for self-maintaining employment hereafter.

In many Unions the Board believe that the children are regularly taken out, but there is reason to think that this is not so in all cases as it should be; and now that the season of the year is more favourable to out-door exercise, the Board are desirous of inviting the special attention

## No. 4.—PAYMENTS TO NATIONAL SCHOOL TEACHERS.

Local Government Board, Dublin,  
30th August, 1875.

SIR,

The Local Government Board for Ireland forward to you herewith, to be laid before the Board of Guardians, a copy of "The National School Teachers (Ireland) Act, 1875," which received the Royal Assent on the 13th August, and in pursuance of the 4th sec. of the Act, the Local Government Board transmit a notice to the Board of Guardians, requiring them within forty days after the receipt thereof to inform the Local Government Board whether, for the purpose of increasing the remuneration of the teachers of National schools within the Union, they are willing to make their Union a contributory Union within the meaning of the Act.

The proceedings in this matter are to be taken in the manner prescribed by the 5th and 6th sections of the Act, namely—a resolution may be passed by the votes of a majority of the Guardians assembled after fourteen days' notice has been given in the manner required by the General Regulations, that the Union shall in each financial year contribute out of the rates a sum equal to one-third of the amount, which, on the passing of the resolution, will become payable in the year by way of results fees in respect of pupils attending the National schools in the Union;—a copy of the resolution, signed by the Chairman and the Clerk of the Union, is then to be sent to the Commissioners of National Education, and to the Local Government Board.

In forwarding this notice the Local Government Board have it in command from His Grace the Lord Lieutenant to lay before the Guardians certain documents, from which they will learn the views of Her Majesty's Government on the subject, and will likewise see clearly the extent of the liability which, according to an estimate framed by the Commissioners of National Education, they will incur by making their Union a contributory one.

The Board of Guardians will observe that the contributions above referred to will not be applicable to the payment of the teachers of the Workhouse schools, but that provision is made by the 12th section of the Act under which the Guardians may, if they see fit, pay results fees, on the certificate of the Commissioners of National Education, to the teachers of Poor Law Union National schools.

By order of the Board,

B. BANKS, Secretary.

To the Clerk of each Union.

## ENCLOSURES in foregoing CIRCULAR.

NOTICE in pursuance of Section 4 of the Act 38 and 39 Vic., c. 96.

THE Guardians of \_\_\_\_\_ Union are hereby required, within forty days after the receipt hereof, to inform the Local Government Board for Ireland whether, for the purpose of increasing the remuneration of the Teachers of National Schools within the Union, they are willing to become a contributory Union within the meaning of the Act 38 and 39 Vic., c. 96.

By order of the Board,

B. BANKS, Secretary.

30th August, 1875.

Dublin Castle,

28th August, 1875.

SIR,

I am directed by His Grace the Lord Lieutenant to transmit herewith, for the information of the Local Government Board, the accompanying copy

of "The National School Teachers (Ireland) Act, 1875," and to call your special attention to Clause 4, which directs the Local Government Board, on or before the 1st day of September, 1875, to transmit to the Guardians of each Union in Ireland a Notice requiring them within forty days after the receipt thereof to inform the Board whether, for the purpose of increasing the remuneration of the Teachers of National Schools within such Union, they are willing to become a contributory Union under the provisions of the Act.

His Grace considers it expedient that the Notice of the Local Government Board should be accompanied by an explanatory Memorandum, copies of which are enclosed, which will elucidate the general scope of the Act and its practical application to each Union.

With a view of affording the Guardians in each Union full information as to their liability in the event of their being willing to become a contributory Union, His Grace has obtained from the Commissioners of National Education Returns showing for each Union—

1. The number of Pupils examined for passes in results, and the amount earned in results fees in the year 1874-75 in each National School within the Union.
2. The total approximate amount payable by the Guardians in results fees to Teachers of National Schools within the Union for the year 1875-76, under the provisions of "The National School Teachers (Ireland) Act, 1875."

His Grace desires me to transmit herewith the aforesaid Returns, and to request you will forward a proper copy of same to each Union, together with a copy of the explanatory Memorandum and of this Letter.

I am, sir, your obedient servant,

T. H. BURKE.

The Secretary to the  
Local Government Board.

## NATIONAL SCHOOL TEACHERS ACT, 1875.

### EXPLANATORY MEMORANDUM.

1. In the financial year 1874-75 (ended 31st March, 1875), the Teachers of National Schools were paid Results Fees for passes obtained by their pupils in the different branches of instruction as ascertained upon examination by the Inspectors of National Schools, on the scale and conditions set forth in the document appended, marked Appendix A.

2. Her Majesty's Government has decided that for the year 1875-6 (to end 31st of March, 1876), there shall be paid from the Imperial Exchequer in lieu of the above payments:—

- (a) An addition to the class salaries of the Teachers, and,
- (b) One half of the Results Fees that could be earned on the scale set forth in the Appendix A.

3. But, in addition to the above, the Government has engaged to provide from the Imperial Exchequer *the other moiety* of the amount that might be earned on the scale of Results Fees set forth in Appendix A, in every Union in which the Poor Law Guardians undertake to contribute, under the powers of the National School Teachers Act of the present year, an amount *equal to such moiety*, i.e., a third of the whole amount payable in Results Fees to the Teachers.

4. If, therefore, a Poor Law Union become "contributory," under the powers of the Act, the Teachers of the National Schools within it will obtain in Results Fees as *much and a half* as provided by the scale of last year.

5. But if a Poor Law Union decline to become contributory, the Teachers of the National Schools within it will obtain in Results Fees only *one-half* of the scale of last year.

e.g. If the passes upon examination on the full scale of Results Fees given in Appendix A represented, say, £20, this would have been the amount paid by the Imperial Exchequer to the Teacher last year.

But for 1875-6 he would receive on the same passes:—

- (c) If the Union were contributory, £30 (i.e., £10 the secured amount and £10 the contingent amount from the Imperial Exchequer, and £10 from the Union).
- (d) If the Union were not contributory, £10 (i.e. only the secured amount from the Imperial Exchequer).
6. The annexed Returns (Appendix B) give separately for each Union:—
- (e) The number of Pupils examined for passes in Results and the amount earned in Results Fees in the year 1874-75 in each National School within the Union.
- (f) The total approximate amount payable by the Guardians in Results Fees to Teachers of National Schools within each Union for the year 1875-76, under the provisions of "The National School Teachers (Ireland) Act, 1875."

These Returns have been prepared under the directions of His Grace the Lord Lieutenant by the Commissioners of National Education with the view of affording the Guardians of each Union full information as to their liability for the year 1875-76, in the event of their being willing to become a contributory Union.

The total approximate amount payable by the Guardians, as stated in Part II., Appendix B, is half the amount that might be earned on the Scale of Results Fees as published in the Rules of the Board, i.e., a third of the total amount of Results Fees payable to the teachers.

7. It is right, however, in reference to the earnings in Results Fees, to observe that as the amount earned in Results Fees depends on the number of schools and children examined, and the passes obtained, the amount earned in one year is only an indication of that which may be earned in a succeeding year.

T. H. BURKE.

Dublin Castle, 28th August, 1875.

## NOTES.

(a) No results fee can be paid in respect of any pupil whose attendance at the school during the year ended on the last day of the month preceding the annual examination shall be less than ninety days.

(b) No pupil may be presented for examination in a higher class than that in which he is enrolled. (This rule applies equally to pupils under seven years of age, and to those above that age.)

(c) The same results fees as in day schools are obtainable in an evening school for every branch taught in the latter; but an attendance on *forty-five* evenings will be accepted as qualifying an evening school pupil for admission to examination for results. *Under no circumstances should a day school pupil be presented for examination in an evening school.*

(d) A written exercise signed and dated by the pupil, must be presented for every attendance for which credit is claimed in an evening school.

(e) Pupils above four and under seven years of age, who make the necessary minimum number of attendances in the year, may be presented for inspection as infants. Individual examination of such pupils may be dispensed with in those schools only in which there is *bona fide* provision made for the systematic training of infants.

(f) In a thoroughly organized infants' school, with a separate staff, and in a separate room, a fee of 4s. per pupil may be paid.

(g) (After the results examinations of the current financial year 1874-5 no fee shall be paid in an infant school for any pupil presented in a class higher than second.)

(h) Only one fee for each subject can be paid for a pupil in any class, no matter how long the pupil may remain in the class, except in the case of infants, and of the fifth class (in which a pupil may be paid for twice, viz., once in each stage), and of sixth class pupils. Any pupil in first, second, third, or fourth class who earns for the teacher fees for reading, writing, and arithmetic, cannot again earn a fee for any subject in the same class. But if the pupil fails in any of these three subjects, he may be presented a second time in the same class, and earn fees in the subjects in which he failed previously, subject to conditions specified in notes (i) and (j).

(i) *Under no circumstances* can a pupil be presented for examination for results fees more than twice in the same class, except in the case of the *fifth* and *sixth* classes, and in that of infants.

(j) Should a pupil be presented for examination for results oftener than once in the sixth class, such pupil, to entitle the teacher to any results fees, must—(a) *If a boy*, exhibit proficiency in three books of Euclid; or in algebra, up to and including quadratic equations; or in plane trigonometry; or in navigation; or in one of the physical sciences; or in some other approved extra branch: (b) *If a girl*, exhibit proficiency in "cutting out" as taught in the Board's Manual of Needlework; or in the use of the sewing machine; or in the cooking of plain food; or in the management of poultry and other domestic animals; or in physical geography; or in some other approved extra branch. (N.B.—Payment can be made only once for the same pupil for proficiency in the use of the sewing machine.)

(k) In cases, however, where it is found necessary by the Inspector, to hold a results examination at a date less than eleven months after the date of the termination of the last results year, teachers will be allowed to present pupils again in the same class in which they passed at the previous examination, subject to conditions specified in notes (i) and (j). This privilege will not, however, extend to the presentation of pupils again in the same stage of fifth or sixth class.

(l) No pupil of seven years of age or above who has been enrolled for a year in any class can be presented in a lower class than that in which he is enrolled; and under no circumstances can a pupil be presented in a lower class than that next below the class in which he is enrolled.

(m) Results fees cannot be paid for needlework in a female school in which there is a workmistress paid by the Board.

(n) The attendance of paid monitors shall be marked on a separate roll, and included in the average daily attendance in all schools; but they are not to be reckoned as pupils for capitation payments, or (except in the case of third class monitors,) to be presented for examination as pupils at the results examination in subjects that form part of their prescribed school course.

(o) First and second class monitors may, however, be presented for results examination in Classics or French, or in a science branch not included in any part of their prescribed course of instruction. Only two such subjects will be allowed to be taken in any one year.

(p) Third class monitors presented for results examinations are subject to the same rules as ordinary pupils.

*Extra subjects:—*

(q) No fee will be paid for any pupil for whose proficiency in the same subject grants are made by the Department of Science and Art.

(r) A fee of five shillings will be paid for every pupil in the fifth or sixth class, who, having passed in reading, spelling, writing, AND arithmetic, shall exhibit satisfactory proficiency in geometry (*First Book of Euclid on Mensuration of Surfaces* for fifth class, and *First and Second Books of Euclid AND Mensuration of Surfaces* for sixth class), algebra (*Elementary Rules* for fifth class, *Elementary Rules and Simple Equations* for sixth class), one of the physical sciences, navigation, or other approved extra branch.

#### NO. 5.—NATIONAL SCHOOL TEACHERS (IRELAND) ACT.

Local Government Board, Dublin,

18th November, 1875.

SIR,

The Local Government Board for Ireland transmit to you herewith, as Treasurer of the Union, a copy of an Order under their seal which has been issued in pursuance of the provisions of "The National School Teachers (Ireland) Act, 1875," assessing the sum payable by each contributory Union, the sum so assessed upon Union being £

The Board desire at the same time to draw your attention to the 9th sec. of the Act, a copy of which is annexed, by which you will see that it is your duty forthwith, on receipt of the Order, out of the funds lying in your hands to the credit of the Guardians, or if there shall be then no sufficient assets, out of the moneys next received by you and placed to the credit of the Guardians, to pay over the amount assessed on the Union to the Bank of Ireland to the credit of the Commissioners of National Education.

By order of the Board,

B. BANKS, Secretary.

To the Treasurer of the

Union.

CORR of Sec. 9 of "The National School Teachers (Ireland) Act, 1875,"  
(38 & 39 Vic., c. 96).

"Forthwith on the receipt of such order by the Treasurer of any contributory Union he shall, out of the funds then lying in his hands to the credit of the Guardians of such Union, or if there shall be then no sufficient assets, out of the moneys next received by him and placed to the credit of such Guardians, pay over the amount so assessed on such contributory Union to the Bank of Ireland, to be there placed to the credit of the Commissioners of Education to a separate account, to be entitled "The Results Fees Account;" and the Guardians of such contributory Union shall in their account with the Electoral Divisions of such contributory Union debit each Electoral Division with its proportion of the said amount according to the net annual value for the time being of the property rateable to the rates for the relief of the destitute poor in each such division."

#### NO. 6.—NATIONAL SCHOOL TEACHERS (IRELAND) ACT.

Local Government Board, Dublin,

18th November, 1875.

SIR,

With reference to the Resolution of the Board of Guardians of Union, passed in accordance with the 5th sec. of "The National School Teachers (Ireland) Act, 1875," to become a contributory Union under the provisions of that Act, the Local Government Board for Ireland now transmit to you to be laid before the Board of Guardians a copy of an Order under their seal, which has been issued in pursuance of the provisions of the 8th sec. assessing the sum payable by each contributory Union, the sum so assessed upon Union being £

A copy of the Order and a copy of the 9th sec. of the Act, which prescribes the mode in which the amount assessed is to be paid, have been forwarded to the Treasurer of the Union.

By order of the Board,

B. BANKS, Secretary.

To the Clerk, Union.

# NO. 7.—RESULTS FEES IN WORKHOUSE NATIONAL SCHOOLS.

Local Government Board, Dublin,  
2nd December, 1875.

SIR,

The Local Government Board for Ireland having observed that in a few instances resolutions have been passed by Boards of Guardians on the subject of the payment of Results Fees to the Teachers of the Workhouse Schools, the Board think it advisable to draw attention to those provisions of the National School Teachers Act of last session which relate to the Teachers of Poor Law Union National Schools, and they accordingly annex to this Circular a copy of the 12th section of the Act, in which those provisions are contained.

By this section it will be seen:—

That the Guardians may, after due notice, resolve that "in any year" payment may be made out of the Poor Rates by way of Results Fees to the Teachers of the Workhouse Schools, where those schools are in connexion with the National Education Board.

That such payment can be made on receiving a certificate of results from the Commissioners of National Education.

That the payment may be of such amount as the Guardians determine, provided that it does not exceed the full amount which would be payable as Results Fees, under like circumstances in an ordinary National School.

It would appear from the above that any resolution which may be passed by the Guardians to pay Results Fees to the Workhouse Teachers will be operative only for the year in which it is passed, and must be renewed from year to year if the Guardians wish to continue the payment; and also that the payment must be made from the Poor Rate, no provision having been made for any contribution towards Results Fees to Workhouse School Teachers from Imperial Funds as in the case of ordinary National Schools.

By order of the Board,

B. BANKS, Secretary.

To the Clerk of each Union.

## COPY of Sec. 12 of "The National School Teachers (Ireland) Act," (38 & 39 Vic., c. 96).

The Guardians of any Union duly assembled after fourteen days' notice has been given in the manner required by the regulations of the Local Government Board may, by a majority of their number, resolve that in any year a sum may be given out of the rates for the relief of the destitute poor by way of fees to the Teachers of the Poor Law Union National Schools in such Union, in respect of results ascertained to have been effected in their respective schools, and thereupon the same shall be paid to such teachers by the Guardians, on receiving a certificate of the results from the Commissioners of Education: Provided always, that the amount of any such payment shall not exceed the full amount which would be payable under the like circumstances to such teachers of such Poor Law Union National Schools if they were teachers of other National Schools in such Union.

## NO. 8.—LUNATIC ASYLUMS (IRELAND) ACT, 1875.

Local Government Board, Dublin,  
18th September, 1875.

SIR,

The Local Government Board for Ireland forward to you herewith, for the information of the Board of Guardians, the annexed Extracts from the Lunatic Asylums (Ireland) Act, 1875, which received the Royal Assent on the 2nd August last.

By these Extracts it will be seen that the Guardians may, subject to the conditions set forth in sec. 9 of the Act, receive into the Workhouse from the District Lunatic Asylum any chronic lunatic who is not dangerous, upon such terms as may be agreed upon between the Guardians and the Governors of the Asylum, the expenses incurred in respect of such lunatic in the Workhouse to be deemed part of the expenses of the asylum, and to be paid by the Governors out of the moneys applicable to the payment of such expenses.

Under sec. 11 pauper patients, when discharged from an asylum, may be forwarded to the Workhouse from which they were sent to the asylum, and the Guardians are to repay to the Governors of the Asylum the expense of the removal.

By sec. 14 it will be seen that provision is now made for payment of expenses incurred in the examination of persons alleged to be dangerous lunatics, including the remuneration of the Medical Officers who may be called on by the Justices to examine such persons.

By order of the Board,

B. BANKS, Secretary.

To the Clerk of each Union.

## ENCLOSURE.

EXTRACTS from "The Lunatic Asylums (Ireland) Act, 1875,"  
38 and 39 Vic., c. 67.

Sec. 9. The Guardians of any Poor Law Union in Ireland may, with the consent of the Local Government Board and the inspectors of lunatics, and subject to such regulations as they shall respectively prescribe, receive into the workhouse of such Union any chronic lunatic, not being dangerous, who may have been received into a District Lunatic Asylum, and selected by the resident medical superintendent thereof and certified by him to be fit and proper so to be removed, upon such terms as may be agreed upon between the said Guardians and the Board of Governors of any such asylum, and thereupon every such lunatic, so long as he shall remain in such workhouse, shall continue a patient on the books of the asylum for and in respect of all the provisions of an Act passed in the session of Parliament held in the first and second years of the reign of His late Majesty King George the Fourth, intituled "An Act to make more effectual provision for the establishment of asylums for the lunatic poor, and for the custody of insane persons charged with offences in Ireland," and the Acts amending the same, so far as they relate to lunatics and insane persons received into District Lunatic Asylums; and any expenses incurred by the Board of Governors in respect of such lunatic in such workhouse shall be deemed part of the expenses of such District Lunatic Asylum, and shall be paid by the Governors out of the moneys applicable to the payment of such expenses.

Sec. 11. Whenever any person being a pauper patient in any District Lunatic Asylum may be lawfully discharged from any such asylum, the Board of Governors of such asylum shall, unless such patient be otherwise discharged, forward such patient to the workhouse of the Union from which he was sent to such asylum, and shall pay the expenses of such removal, and the Guardians of the said Union shall repay to the said Board of Governors the expenses so paid by them as aforesaid.

Sec. 14. Notwithstanding anything in section 10 of the Act of the session of Parliament held in the thirtieth and thirty-first years of the reign of Her present Majesty, chapter one hundred and eighteen, to the contrary, it shall be lawful for any two justices causing any person to be examined by any medical officer as therein mentioned, if they think fit so to do, to make an order under their hands and seals upon the Guardians of the Union to which such person belongs, for the reasonable remuneration to such medical officer and for the payment of all other reasonable expenses in or about the examination of such person, not exceeding in the whole the sum of two pounds.

All moneys so ordered to be paid by the Guardians of such Union shall respectively be advanced, paid, and raised in like manner as any other moneys required for supporting and maintaining the destitute poor of such union.

## APPENDIX B.

### CIRCULARS OF INSTRUCTION UNDER THE MEDICAL CHARITIES ACT AND THE VACCINATION ACTS.

#### No. 1.—ANNUAL APPOINTMENT OF DISPENSARY COMMITTEES AND WARDENS.

Local Government Board, Dublin,

4th April, 1876.

SIR,

The Local Government Board for Ireland desire to call your attention to the circular of the Poor Law Commissioners dated the 21st of March, 1862, relating to the annual appointment of dispensary committees and wardens, and to the extracts from previous circulars appended thereto; and they request that you will take the necessary steps, as pointed out in the circular referred to, to place before the Board of Guardians, after the annual election, a correct list of the members of the Board entitled to be members of the respective dispensary committees in the union.

*This ought to be done by distinct resolution and recorded on the minutes.*

As soon as the committee shall have been completed for any dispensary district, the guardians should fix a day for the first meeting of such committee, for the special purpose of appointing their honorary officers for the current year, in accordance with articles 6 and 7 of the Dispensary Regulations, and you should give notice thereof to each member of the dispensary committee, in accordance with articles 11 and 13 of the Dispensary Regulations.

A form for the return of officers of the several dispensary committees in the union will be forwarded to you in due course.

By order of the Board,

B. BANKS, Secretary.

To the Clerk of the Board of Guardians  
of each Union.

## No. 2.—RETURN of OFFICERS of DISPENSARY COMMITTEES.

Local Government Board, Dublin,

7th April, 1876.

SIR,

With reference to their circular of the 4th instant, relating to the annual appointment of dispensary committees and wardens, the Local Government Board for Ireland enclose herewith a form for the return of officers of the several dispensary committees in the union.

In the circular above referred to the Board recommended that as soon as the committee should have been completed for any dispensary district, the guardians should fix a day for the first meeting of such committee, *for the special purpose of appointing their honorary officers for the current year*, in accordance with the dispensary regulations, and that you should give notice thereof to each member of the dispensary committee, in accordance with those regulations; and if this recommendation has not been acted upon in the case of any dispensary district in the union, the Board request that you will bring the matter again under the notice of the Board of Guardians.

Articles 6 and 7 of the Dispensary Regulations of 29th November, 1869, relate to the appointment of the honorary officers, and articles 11 and 13 relate to the notice of meeting.

The Board enclose three copies of the form, so as to enable you to make the return in *duplicate* to this Office, and to retain a copy for the use of the Board; and they request that you will procure the necessary information with the least practicable delay, and then forward your return to this Office.

By order of the Board,

B. BANKS, Secretary.

To the Clerk of the Board of Guardians  
of each Union.

## No. 3.—EXAMINATION OF DANGEROUS LUNATICS.

Local Government Board, Dublin,

18th September, 1875.

SIR,

#### I.—ORDERS.

No. 1.—ORDER amending the GENERAL SANITARY ORDERS of 9th September, 1874, in reference to the TOWN of YOUGHAL.

TO the GUARDIANS of the YOUGHAL UNION; to the MEDICAL OFFICERS of the WORKHOUSE and of the DISPENSARY DISTRICTS therein; to the CLERK and other paid OFFICERS thereof; to the TOWN COMMISSIONERS of the TOWN of YOUGHAL; and to all whom it may concern.

WHEREAS, by General Orders under our seal, bearing date the 9th day of September, 1874, We, the Local Government Board for Ireland, did issue rules and regulations under the Public Health (Ireland) Act, 1874, for the sanitary organization of Rural Sanitary Districts and Urban Sanitary Districts, the said General Orders being numbered and described as follows, that is to say:—

Sanitary Order No. I., relating to Rural Sanitary Districts consisting of entire Unions;

Sanitary Order No. II., relating to Rural Sanitary Districts consisting of parts of Unions of which other parts are Urban Sanitary Districts;

Sanitary Order No. III., relating to Urban Sanitary Districts.

AND WHEREAS, the Youghal Union is named in the Schedule to the said General Order No. II.; and the town of Youghal is named in the Schedule to the said Order No. III.:

AND WHEREAS, it has been represented to us by the Town Commissioners of the town of Youghal that the population of the town within the limits or boundaries of the municipal borough under the jurisdiction of the Commissioners is under 6,000, according to the Parliamentary census of the population of the townlands, parts of townlands, streets, or places within the said limits; and the Commissioners for taking the census of Ireland have, after inquiry, confirmed the same, by which it appears that the population of the town of Youghal, as published in the census of the county of Cork, included the enumeration of the population of places not within the limits of the municipal borough, and the said town of Youghal does not therefore constitute an Urban Sanitary District as defined by the Public Health (Ireland) Act, 1874 but is part of the Youghal Union Sanitary District:

AND WHEREAS, it is therefore expedient to amend the said General Orders of the 9th day of September, 1874, with respect to the Youghal Union and the town of Youghal:

NOW, THEREFORE, WE do hereby declare as follows, anything in the said General Orders to the contrary notwithstanding, that the said General Order No. I. shall apply to and be in force in the Youghal Union Sanitary District, including the town of Youghal, as fully and effectually as if the said Union was named in the Schedule to the said General Order, and the Guardians of the Union shall be the Sanitary authority for the said District; and the said General Orders No. II. and No. III. shall not apply to the said Union, nor to the town of Youghal—and in all other respects We do hereby confirm the said Orders.

No. 2.—ORDER amending the GENERAL SANITARY ORDERS of 9th September, 1874, in reference to the TOWN of BANDON.

To the GUARDIANS of the BANDON UNION; to the MEDICAL OFFICERS of the WORKHOUSE and of the DISPENSARY DISTRICTS therein; to the CLERK and other paid OFFICERS thereof; to the TOWN COMMISSIONERS of the TOWN of BANDON; and to all whom it may concern:

WHEREAS, by General Orders under our Seal, bearing date the 9th day of September, 1874, We, the Local Government Board for Ireland, did issue Rules and Regulations under the "Public Health (Ireland) Act, 1874," for the sanitary organization of rural sanitary districts and urban sanitary districts, the said General Orders being numbered and described as follows, that is to say—

Sanitary Order, No. I., relating to rural sanitary districts consisting of entire unions;

Sanitary Order No. II., relating to rural sanitary districts consisting of parts of unions of which other parts are urban sanitary districts;

Sanitary Order No. III., relating to urban sanitary districts.

AND WHEREAS, the Bandon Union is named in the Schedule to the said General Order No. II.; and the town of Bandon is named in the Schedule to the said Order No. III.:

AND WHEREAS, it has been represented to us by the Town Commissioners of the town of Bandon that the population of the town within the limits or boundaries of the municipal borough under the jurisdiction of the Commissioners is under 6,000, according to the Parliamentary Census of the population of the townlands, parts of townlands, streets, or places within the said limits; and the Commissioners for taking the Census of Ireland, have, after inquiry, confirmed the same, by which it appears that the population of the town of Bandon, as published in the Census

of the county of Cork, included the enumeration of the population of places not within the limits of the municipal borough, and the said town of Bandon does not therefore constitute an urban sanitary district as defined by the "Public Health (Ireland) Act, 1874," but is part of the Bandon Union sanitary district:

AND WHEREAS, it is therefore expedient to amend the said General Orders of the 9th day of September, 1874, with respect to the Bandon Union and the town of Bandon:

NOW, THEREFORE, WE do hereby declare as follows, anything in the said General Orders to the contrary notwithstanding, that the said General Order No. I. shall apply to and be in force in the Bandon Union sanitary district, including the town of Bandon, as fully and effectually as if the said union was named in the Schedule to the said General Order, and the Guardians of the Union shall be the sanitary authority for the said district; and the said General Orders No. II. and No. III. shall not apply to the said union, nor to the town of Bandon—and in all other respects except as to the amendment of the said Orders by a General Order under our Seal, bearing date the 1st day of April last, relating to the Youghal Union and to the town of Youghal, We do hereby confirm the said Orders.

Scaled with our Seal, this Twenty-sixth day of July, in the  
Year of Our Lord One Thousand Eight Hundred and  
Seventy-five.

##### NO. 1.—PREVENTION OF FILTH DISEASES.

Local Government Board, Dublin,

9th August, 1875.

SIR,

The Local Government Board for Ireland send herewith for the use of the sanitary authority and its sanitary officers, one copy of a recent Report of the Medical Officer of the Local Government Board in England, with an appendix containing several special reports of the English Medical Inspectors. This volume is the latest of a series giving the results of many years' continuous scientific inquiry, under the English Privy Council and the English Local Government Board, into various causes of preventible disease, especially such as are connected with accumulations of filth, and the pollution of water used for drinking; and it cannot but be valuable as a book of reference to the consulting officer and the sanitary officers acting in the district which is under the control of each sanitary authority in Ireland.

The researches comprised in this volume are limited to filth and filth diseases, and their prevention, excluding some of an equally dangerous and fatal character arising from other causes than accumulated filth, and yet preventible; such, for example, as diseases originating in, or actively promoted by, the vitiated air of over-crowded rooms, which are referred to as belonging to a separate branch of inquiry.

The prevention of filth diseases is obviously to be effected only by a systematic prompt removal of the filth, in whatever form presented, and resolves itself into two branches; the *water-closet system*, and the removal of excremental refuse by other conveniences, generally outside the dwelling.

The water-closet, as self-acting, is the most reliable, when served with a sufficient and constant supply of water, and the most prompt of all removing appliances. The other class, unfortunately, at present usually consists of the common midden and cess-pool, or privy and ash-pit, whence prompt and regular removal is seldom practised, and no removal at all is sometimes the prevailing rule.

The water-closet, however, is by no means represented as a *summum bonum* in comparison with other expedients, but as possessing peculiar dangers of its own to life and health, more insidious and often more fatal than the visible and palpable depositories of accumulated filth; and the science of prevention of filth disease thus becomes applicable to the one quite as much as to the other; the former acting by poisonous ferments not always perceptible to smell; the latter chiefly through the pollution of water, afterwards applied to drinking purposes, by overflow on the surface, or soakage through the soil.

The peculiar types of fever engendered by those causes are all classed under the head of enteric fever, including diarrhoea, and seem allied, in some sense, to Asiatic cholera; and their endemic or epidemic forms are thought to depend on similar modes of introduction and propagation, as the disease of cholera.

The newest and most striking of the facts exhibited in this volume are those relating to the effects of polluted water when distributed in milk supply, the certainty of which is most exhaustively demonstrated in three of the six Inspectors' reports contained in the appendix. It may readily be supposed that if polluted water so distributed were capable of disseminating enteric fever, an outbreak from that cause would be open to detection by careful inquiry, and no one who studies these three reports can be otherwise than convinced of the truth in each case by the evidence presented.

There is one point which all these milk cases seem to possess in common—namely, the pollution of the dairyman's well by sewage presumed to contain alvine excreta from some patient known to have been under the specific influence of enteric fever.

The most practically useful part, perhaps, of the matters contained in the Medical Officers' Report relates to the improved forms of appliances by which excremental filth can be promptly removed from the dwellings of the lower classes in towns and villages.

Leaving the better-to-do classes in exclusive enjoyment of their luxurious appliance, the water-closet, and to the responsibility of providing against the dangers which accompany its incautious use, or defective construction, we have here before us the great extended field of labour in which, for many years past, the employés of the English Privy Council and Local Government Board have been engaged in a noble struggle against filth diseases arising from non-removal of filth, for the benefit of the poorer classes more especially.

We are here introduced to an improved system of removal appliances, all distinguished from the bad arrangements in most general use, the midden and cess-pool, by the characteristic of a receptacle not admitting of communication with the soil, and, therefore, not of percolation through its pores into adjacent wells or running streams of water.

Among these rank in the gradation assigned to them in the Report—

1. Pail-Privies.
2. Ash-Privies.
3. Earth-Privies.
4. Charcoal-Privies.

The indispensable adjunct to the use of any of these plans is held to be a systematic regular course of emptying and removal, such as can be secured only by the vigilant attention, through its officers and servants, of the sanitary authority itself.

It is impossible to attempt to epitomize the contents of Mr. Simon's Report, and all which is above stated is meant to give a general idea of the scope and character of its teachings.

The Appendices are seven in number :—

No. I. A Tabulated Illustration, derived from Inspectors' Reports during the last four years, of the "*circumstances in which Enteric Fever is commonly found prevalent.*" The localities reported on are no less than 150 in number.

No. II. Report by Dr. Blaxall on an outbreak of Enteric Fever in the town of Sherbourne, Dorsetshire.

No. III. Report by Dr. Buchanan on an outbreak of Enteric Fever in Caius College, Cambridge.

No. IV. Report by Dr. Ballard on an outbreak of Enteric Fever at Armley, in the borough of Leeds. (This is the first of the Milk Reports.)

No. V. Report by Dr. Ballard on an outbreak of Enteric Fever at Moseley and Balsall Heath, near Birmingham. (The second Milk report.)

No. VI. Report by Mr. J. Netten Radcliffe and Mr. W. H. Power on an outbreak of Enteric Fever in Marylebone and adjoining parts of London. (The third Milk Report.)

No. VII. Report by Mr. J. Netten Radcliffe on certain means of preventing excremental nuisances in towns and villages.

The latter report is of great practical value as describing the various towns in Great Britain in which the recently adopted contrivances for receiving and removing excremental deposits, are in practical operation.

The one great lesson expounded on the subject of these contrivances is, that whatever apparatus be in general use, the prompt removal of excrement by a thorough system of scavenging, or scavenge, as it is called, is indispensably necessary to the security of the public health; and that such a system cannot be expected to be maintained without unintermitting attention on the part of the sanitary authority through its officers and servants.

There is one mode of excrement removal, too recently invented to have a place in Mr. Simon's Report, which has, however, assumed a position of progress in public opinion which will justify its being mentioned in this circular—Captain Liernur's *System of Pneumatic Drainage*.

This, as the name implies, is removal by atmospheric pressure through a system of pipes terminating at one centre, where a vacuum is made by a steam-engine. All is removed through the pipes simultaneously, or nearly so, without offence to sight or smell, once in twenty-four hours, and, water being excluded as far as practicable, no sewer gas ever escapes to the closet, and through it into the dwelling. At the central terminus all is removed, after being dried by heat, each twenty-four hours, in barrels to its destination in the country, where experiment has shown

that it has a substantial commercial value. The liquid sewage is dealt with by a separate system of drainage, and is sent away comparatively unpolluted. In towns whose situation is not so near to tidal waters as to afford facility for the removal of sewage to the depths of the sea, this system must soon become an object of interest and inquiry.

It has already been tried with alleged success in certain towns in Holland, as Leyden and Amsterdam, but nowhere yet in Great Britain or Ireland.

The great discouragement to the adoption of this system is the first expense of establishing the works; their subsequent repair and permanent working expenses being comparatively light, and no more than may be covered or exceeded probably by the profits; but the system, adopted for sanitary purposes in this country, of Treasury Loans for long periods at moderate interest affords facilities for large initiatory outlays which do not exist abroad.

Urban sanitary authorities in Ireland will do well to inform themselves of the Liernur process, and to watch the results of the first trials of it in Great Britain.

By Order of the Board,

B. BANKS, Secretary.

To the Executive Officer of each  
Sanitary Authority in Ireland.

**NO. 2.—SALE OF FOOD AND DRUGS ACT, 1875.**

Local Government Board, Dublin,  
3rd November, 1875.

SIR,

The Local Government Board for Ireland desire to draw the attention of the Sanitary Authority to those provisions of the Act of last session, relating to the Sale of Food and Drugs, which prescribe the mode of proceeding to obtain an analysis of any article of food or of any drug, and a certificate of the result of such analysis; upon which, if it shall appear that an offence has been committed against any of the provisions of the Act, proceedings for the recovery of the penalty imposed for such offence may be taken.

Extracts from the Act (sections 12 to 17) are accordingly annexed hereto; and with reference to the 13th section, which enables certain officers and other persons under the direction and at the cost of the Local Authority appointing them or charged with the execution of the Act, to procure any sample of food or drugs if they shall suspect the same to have been sold contrary to any provision of the Act, and to submit the same to be analysed, the Board desire to state that they consider the words "Medical Officer of Health," and the words "Inspector of Nuisances," as used in that section, to include the "Sanitary Officers" and the "Sub-Sanitary Officers" under the Public Health Act, 1874.

By order of the Board,

B. BANKS, Secretary.

To each Urban Sanitary Authority  
and each Rural Sanitary Authority.

EXTRACTS from the "Act to repeal the Adulteration of Food Acts and to make better provision for the Sale of Food and Drugs in a pure state."  
(38 & 39 Vic., c. 63.)

Sec. 12. Any purchaser of an article of food or of a drug in any place being a district, county, city, or borough where there is any analyst appointed under this or any Act hereby repealed, shall be entitled, on payment to such analyst of a sum not exceeding ten shillings and sixpence, or if there be no such analyst then acting for such place, to the analyst of another place, of such sum as may be agreed upon between such person and the analyst, to have such article analysed by such analyst, and to receive from him a certificate of the result of his analysis.

Sec. 13. Any medical officer of health, inspector of nuisances, or inspector of weights and measures, or any inspector of a market, or any police constable under the direction and at the cost of the local authority appointing such officer, inspector, or constable, or charged with the execution of this Act, may procure any sample of food or drugs, and if he suspect the same to have been sold to him contrary to any provision of this Act, shall submit the same to be analysed by the analyst of the district or place for which he acts, or if there be no such analyst then acting for such place, to the analyst of another place, and such analyst shall, upon receiving payment as is provided in the last section, with all convenient speed analyse the same, and give a certificate to such officer, wherein he shall specify the result of the analysis.

Sec. 14. The person purchasing any article with the intention of submitting the same to analysis shall, after the purchase shall have been completed, forthwith notify to the seller or his agent selling the article his intention to have the same analysed by the public analyst, and shall offer to divide the article into three parts, to be then and there separated, and each part to be marked and sealed, or fastened up in such manner as its nature will permit, and shall, if required to do so, proceed accordingly, and shall deliver one of the parts to the seller or his agent.

He shall afterwards retain one of the said parts for future comparison, and submit the third part, if he deems it right to have the article analysed, to the analyst.

Sec. 15. If the seller or his agent do not accept the offer of the purchaser to divide the article purchased in his presence, the analyst receiving the article for analysis shall divide the same into two parts, and shall seal or fasten up one of those parts, and shall cause it to be delivered, either upon receipt of the sample or when he supplies his certificate to the purchaser, who shall retain the same for production in case proceedings shall afterwards be taken in the matter.

Sec. 16. If the analyst do not reside within two miles of the residence of the person requiring the article to be analysed, such article may be forwarded to the analyst through the post office as a registered letter, subject to any regulations which the Postmaster-General may make in reference to the carrying and delivery of such article, and the charge for the postage of such article shall be deemed one of the charges of this Act, or of the prosecution, as the case may be.

Sec. 17. If any such officer, inspector, or constable, as above described, shall apply to purchase any article of food or any drug exposed to sale, or on sale by retail on any premises or in any shop or stores, and shall tender the price for the quantity which he shall require for the purpose of analysis, not being more than shall be reasonably requisite, and the person exposing the same for sale shall refuse to sell the same to such officer, inspector, or constable, such person shall be liable to a penalty not exceeding ten pounds.

### NO. 3.—COMMON LODGING HOUSES.

Local Government Board, Dublin,  
6th September, 1875.

SIR,

The Local Government Board for Ireland have had referred to them from the office of the Chief Secretary of the Lord Lieutenant a report from a resident magistrate of an investigation made by him into

E

certain occurrences which took place in a lodging house in the county of Westmeath, in which he makes the following observation:—

"This case compels me to call the attention of Government to the disgraceful indecency—to say the least—which must result from the manner in which persons of both sexes are permitted to huddle together in one wretched room, with a mere hole as a window, in such lodging houses (and I know they are numerous) as the above described."

The power of regulating common lodging houses, and thus preventing such a state of things as above described, being vested in the sanitary authorities, the Board think it right to draw their attention to the powers which they possess under the Common Lodging Houses Act, and to recommend them to take active steps for bringing all common lodging houses which are within their jurisdiction under proper regulation and control.

The Board are aware that in some instances regulations have been made, and a system of inspection established, but they think it right nevertheless to draw attention to the subject, with a view to such measures being more generally adopted in rural as well as in urban districts, the powers and duties of the various local authorities under the Common Lodging Houses Acts having been transferred by the 7th section of "The Public Health Act, 1874," to the sanitary authorities.

The Board desire, therefore, to draw attention to the circular letter of the Poor Law Commissioners, of the 30th June, 1860, printed in the Annual Report for 1861, page 25, and to request that the subject may be taken into consideration by the sanitary authorities, with the view of enforcing the registration of common lodging houses in their district, the making of suitable by-laws, and the inspection of such houses.

A copy of the Common Lodging Houses Acts is enclosed, together with a copy of a set of by-laws which were settled by counsel some time since, and which may, subject to the approval of the Local Government Board, be adopted either entirely or with any modifications that may be thought advisable.

By order of the Board,

B. BANKS, Secretary.

To each Executive Sanitary Officer.

#### ENCLOSURE.

**BY-LAWS** made by the **SANITARY AUTHORITY**, in pursuance of the provisions of "The Common Lodging Houses Act, Ireland, 1860," for the well ordering of such houses—for the separation of the Sexes therein—for fixing the Number and Sex of the Lodgers who may be received into each such house, and for promoting Cleanliness and Ventilation therein.

1. A copy of the by-laws shall be placed in a conspicuous part in each room or apartment of every common lodging house within the said Union, and shall not be defaced nor removed, and shall be delivered to the inspector or other authorized officer when thereunto required.

2. No keeper of a common lodging house shall accommodate a greater number of lodgers or other persons than that mentioned in the entry of said house in the register of common lodging houses.

3. Every common lodging house shall be swept or brushed out daily, and not later than 10 o'clock, A.M., washed at least once in each week, limewashed twice each year, and all filth shall be removed from the premises in a covered tin bucket twice daily, viz., before 7 o'clock, A.M., and after 10 o'clock, P.M., and the windows of such lodging houses shall be kept open for at least two hours daily.

4. Males and females shall occupy separate sleeping rooms; but where there may be only one sleeping apartment for lodgers, such lodging house shall be registered as a common lodging house for males or females, or for one married couple, as the keeper of such lodging house may select, and the keeper shall not receive any other but those for the reception of whom the said lodging house is registered.

5. No house shall be registered as a common lodging house unless there shall be appurtenant thereto the use of a water-closet or privy or be furnished with a night-chair, nor unless each sleeping room shall have an external window made to open.

6. If any lodger in any common lodging house be attacked with illness, the keeper of the lodging house shall report the same to the Inspector of Lodging Houses or to the Relieving Officer and the Sanitary Officer of the District; and in all cases where a person ill of fever or any infectious disease is removed therefrom, or becomes convalescent, or dies therein, such lodging house shall be thoroughly cleansed and linewashed, and shall be purified by using a disinfecting process.

7. No horse, ass, mule, horned cattle, sheep, or swine shall be kept or fed in any common lodging house.

8. The keeper of every common lodging house shall always have a good supply of pure fresh water for the use and accommodation of lodgers, and shall at all times have a basin and towel for each sleeping room in such lodging house.

9. The yards and area of every common lodging house shall be thoroughly swept and cleansed once at least every day, and no stagnant or foul water or other offensive matter shall be allowed to remain in any such yards or areas.

10. The keeper of every common lodging house shall, before admitting any applicant for lodging, ascertain the name and last place of residence of such applicant or applicants, his or their usual occupation, trade, or calling; and every common lodging house keeper shall keep a book in which shall be entered the name of every person as aforesaid, and the day of the month each person commenced lodging, and also the day of the month each person ceased to be a lodger in such lodging house; and the keeper of every common lodging house shall produce at all times when so required said book to the Inspector of Common Lodging Houses or other authorized officer, who is hereby empowered to take a copy of any and every entry made therein.

# No. 4.—REGULATION and INSPECTION of COMMON LODGING HOUSES.

Local Government Board, Dublin,  
9th February, 1876.

SIR,

Adverting to their circular letter of the 6th September last, on the subject of the adoption of by-laws by the sanitary authorities, for the regulation of common lodging houses under the provisions of the Common Lodging Houses Acts, the Local Government Board for Ireland desire to acquaint you that having received a communication from a rural sanitary authority, by which the by-laws which accompanied that letter had been adopted, suggesting that the services of the Royal Irish Constabulary should be made available in carrying out their provisions, the Board brought the subject under the consideration of His Grace the Lord Lieutenant, and the matter having been referred to the Inspector-General of Royal Irish Constabulary, it appears to be considered by him that for the police to carry out these by-laws would occupy too much of their time, but that there is no objection to their enforcing the rule which provides that no keeper of a common lodging house shall accommodate a greater number of lodgers or other persons than that mentioned in the entry of said house in the register of common lodging houses.

It is doubtful, however, whether the constabulary have power to enter common lodging houses at all times, and therefore, if the sanitary authority desire to avail themselves of the services of the constabulary in this respect, to the extent above stated, which the Board would recommend them to do, they should make a new by-law under the 4th section of the Common Lodging Houses (Ireland) Act, 1860, providing for the employment of the constabulary as officers to make entry and inspection at all hours, and providing a penalty in case of refusal or obstruction. A draft of such a by-law is annexed.

Should the proposed by-law be adopted, the sub-inspector or constable in charge should be informed of the authorized number of lodgers for each house.

By order of the Board,

B. BANES, Secretary.

To each Urban Sanitary Authority and each  
Rural Sanitary Authority.

## COMMON LODGING HOUSES ACTS.

14 & 15 Vic., c. 28; 16 & 17 Vic., c. 41; 23 Vic., c. 26.

Whereas the\* sanitary authority have, in pursuance of the powers vested in them in that behalf, made by-laws respecting common lodging houses within their district, for the well ordering of such houses and for the separation of the sexes therein, and for fixing the number and sex of the lodgers who may be received into each such house, and for promoting cleanliness and ventilation therein, and such by-laws have been duly approved in accordance with the provisions of the above-mentioned Acts, and it is expedient to provide, by a by-law to be made in pursuance of the powers aforesaid, for the inspection of such houses:

Now, Therefore, We hereby make the following by-law in addition to the by-laws so made and approved as aforesaid:—

"The keeper of every common lodging house shall give access to the same, at all times when required by the Sanitary Officer, or by any Sub-Sanitary

### No. 5.—LOANS from PUBLIC WORKS LOAN COMMISSIONERS.

Local Government Board, Dublin,  
3rd November, 1875.

SIR,

The Local Government Board for Ireland have received a communication from the Chief Secretary's office intimating the desire of His Grace the Lord Lieutenant that certain provisions of the Public Works Loans Act of last session (38 and 39 Vic., c. 89), should be communicated to the several Boards of Guardians, Towns Improvement Commissioners, and other bodies which are required by law to procure the sanction of this Board for the purpose of obtaining loans.

The Board accordingly desire to state that the 13th section of the Act provides that, for the purpose of passing an annual Act of Parliament granting money for the purpose of loans by the Public Works Loan Commissioners, every intending borrower shall send to those Commissioners, on or before the 31st day of December in every year, a statement of the new loan, or instalment of a loan already granted, which the sender will probably apply for during the ensuing financial year (that is, the year commencing on the 1st April). These statements are to be submitted to the Treasury by the Loan Commissioners, with such information as may be necessary for enabling the Treasury to lay before the House of Commons an estimate of the amount required to be granted for the purpose of loans by the Loan Commissioners, who will not have power, except with permission of the Treasury, to grant any loan or advance any instalment of a loan which has not been included in such a statement as above mentioned.

The Board are informed that the first measure for this purpose will be laid before Parliament in its next session, the 1st of April next being the date fixed for the commencement of the new system, and that it is therefore necessary, under the 54th section of the Act, that the Treasury should at once obtain materials for an estimate, any body or person not sending to the Public Works Loan Commissioners, on or before the 31st day of December next, an estimate of the loans out of the Consolidated Fund for which they will make application under the Public Works Loan Acts, will not be entitled to any loan out of the Consolidated Fund in the course of the financial year commencing the 1st day of April, 1876, even though they may fulfil all the other conditions which Parliament has prescribed.

It is right at the same time to observe that the 57th section provides that the Act shall not affect the issue of money for the purposes of Loans by the Commissioners of Public Works in Ireland, in accordance with

the Act 29 and 30 Vic., c. 73, and that the sums mentioned in that Act may be issued in like manner as if the present Act had not been passed.

It appears, therefore, that the new enactment, so far as regards Ireland, applies only to those loans which are made by the English Public Works Loan Board, and does not affect loans which may be advanced by the Commissioners of Public Works in Ireland.

By order of the Board,

B. BANKS, Secretary.

and each Governing Body of a town in Ireland.

### III.—CORRESPONDENCE WITH THE BOARD OF GUARDIANS OF THE WATERFORD UNION, ON THE SUBJECT OF THE SALARIES OF SANITARY OFFICERS UNDER THE PUBLIC HEALTH ACT.

(In continuation of the correspondence printed in the Annual Report for 1875, App. C. III.)

#### NO. 1.—EXTRACT from MINUTES of PROCEEDINGS of the BOARD of GUARDIANS, on Wednesday, 7th April, 1875.

Ordered in reference to Clerk's Report of last Board day concerning the payment of the salaries due to the Officers under the Public Health Act, which were fixed by the Local Government Board.

That this Board is prepared to pay these Sanitary salaries according to the scale fixed by this Board itself.

Moved by Mr. Conn, seconded by Mr. Clampett—passed with two dissentients.

#### NO. 2.—EXTRACT from MINUTES of PROCEEDINGS of the BOARD of GUARDIANS, on 30th June, 1875.

##### CLERK'S REPORT.

The usual Meeting of the Finance Committee was held yesterday. The Bills of the Sanitary Officers were presented, calculated according to the scale fixed by the Local Government Board. The Committee rejected them, and directed the Clerk to acquaint those Officers that the Committee is ready to pay their salaries as Sanitary Officers, at the scale fixed by the Board of Guardians.

Approved.

#### NO. 3.—LETTER from the LOCAL GOVERNMENT BOARD to the BOARD of GUARDIANS.

Local Government Board, Dublin,

SIR,

6th July, 1875.

The Local Government Board for Ireland acknowledge the receipt of the Minutes of Proceedings of the Board of Guardians of the Waterford Union on the 30th ult., from which it appears that the Sanitary Officers' accounts, calculated in accordance with the scale fixed by the Order of the Local Government Board, were presented to the Finance Committee, but were rejected in consequence of their not being made

out according to the sums fixed by the Guardians; and in reference thereto the Board desire to point out that the Guardians are liable to be sued for the legal salaries as fixed by the Local Government Board.

By order of the Board,

B. BANKS, Secretary.

To the Clerk of Waterford Union.

---

No. 4.—EXTRACT from MINUTES of PROCEEDINGS of the BOARD of GUARDIANS, on 8th September, 1875.

Read letter from Messrs. Dobbyn and Tandy, solicitors, forwarding case submitted to counsel on behalf of Sir R. J. Paul, Bart., as Chairman of the Waterford Union, in reference to the powers of the Local Government Board to fix the salaries of the Sanitary Officers at a higher figure than that agreed upon by the Board of Guardians.

1. Counsel stated in reply to inquiries—"That in his opinion the effect of the Public Health Act, 1874, established by the decision of the Queen's Bench upon an earlier statute (Reg. v. Guardians of Bantry Union), is to empower the Local Government Board to compel the payment of the salaries approved by the Board. The sealed Order will not authorize the Treasurer to make the payment but if the Guardians should refuse to sanction the salary directed by the Board, a mandamus can be obtained by application to the Queen's Bench enforcing the payment of the salary fixed by the Order notwithstanding the opposition of the Guardians.

2. The medical officers cannot, in counsel's opinion, sue by action for their salaries, but they, as interested parties, can apply for the writ of mandamus to enforce payment of the sum which has been approved by the Local Government Board.

3. The Chairman is only one member of the Board of Guardians. He cannot be enforced in any way to obey the Orders of the Local Government Board, in signing cheques or otherwise, contrary to the vote of the majority of the Guardians, but the whole body of Guardians can be compelled by mandamus to pay the approved salary.

4. The same difference of opinion arose in many Poor Law Unions. I believe that the opinion I have given above has been given by other counsel, and acted on by the Guardians elsewhere. Inquiry might well be made as to this, because if it has been determined in any other Union to contest the matter, the Waterford Guardians might be unwilling to yield, until a general decision has been obtained, but I cannot advise litigation, and I would recommend the Guardians to pass a resolution under protest, yielding to the sealed Order, and directing the payment of the approved salaries.

GERALD FITZGIBSON.

Board to be summoned specially, to take the foregoing into consideration this day week.

## NO. 5.—EXTRACTS FROM MINUTES OF PROCEEDINGS OF THE BOARD OF GUARDIANS ON 22nd September, 1875.

The following letter was read from Sir R. J. Paul, Chairman:—

Ballyglan, Waterford,  
September 21, 1875.

DEAR SIR,

IN answer to your circular, with query whether I would act as an *ex-officio* Guardian for the ensuing year, I regret that I feel constrained to answer in the negative. My decision has not been caused altogether by the late difference with the Local Government Board, but I can see that the general drift of the current of authority is towards central management. I, as a country gentleman, would always have been glad to assist in the relief of the poor, and to use any local knowledge that I possess for the furtherance of that object; but I could not afford to waste my time in acting merely as the medium for carrying out what I and the majority of the Board consider to be injudicious measures.

If the Local Government Board disapprove of the opinion held by the Board of Guardians in respect to vital questions of charges on the rates, they ought to appoint their own paid Guardians, and take the responsibility off the Local Guardians.

I also perceive that every day matters outside the relief of the poor are added to the duties of the Guardians and to the amount of the rate.

I hope that you will convey to the Board my sincere thanks for their kindness and good-will to me during the many years that I have had the honour of being the chairman.

I ought also to express my opinion that there should be no further opposition to paying the amount of salary named by the Local Government Board—that is, assuming that the Board of Guardians continue to act.

Permit me also to thank you individually for the assistance that you have always given to me.

Believe me yours faithfully,

R. J. PAUL.

To John Mackey, esq.

Moved by Alderman Jacob, *v.c.*, seconded by Mr. Bloomfield, *J.P.*:—

Resolved—That the Board has heard with deep regret the letter addressed by their valued Chairman, Sir R. J. Paul, to the Clerk, declining to act as an *ex-officio* Guardian during the coming year. Entirely uniting and sympathising with his views as expressed therein, yet they earnestly and unanimously entreat him to reconsider his determination and not withdraw himself from the chairmanship of the Board which has so loved and respected him.

Passed unanimously.

Read letter No. 1,610, 17th September, 1875, for return of salaries of officers under "The Public Health Act, 1874," to be signed by the presiding Chairman and Executive Sanitary Officer.

The Executive Sanitary Officer prepared the return as directed, and submitted it for the presiding Chairman's signature; but on a division, the Board decided, by 11 to 6 votes, to postpone the consideration of this return, as also the counsel's opinion upon the subject of the payment of the sanitary salaries fixed by sealed order of the Local Government Board for a fortnight.

**NO. 6.—EXTRACT from MINUTES of PROCEEDINGS of the BOARD of GUARDIANS on 27th October, 1875.**

The Board having proceeded to the consideration of counsel's opinion upon the subject of the payment of the sanitary salaries fixed by the Local Government Board, &c., &c.—

Mr. Clappett moved, and Mr. Halley seconded—That this Board of Guardians adheres to its former resolution to pay the salaries of the Sanitary Officers as fixed by themselves.

Passed on a division by 8 to 2 votes.

The presiding Chairman accordingly declined to sign the return prepared by the Executive Sanitary Officer of the Sanitary Officers' salaries, the amount stated therein as the salaries of the Rural Sanitary Officers being in accordance with the sealed order of the Local Government Board.

**NO. 7.—LETTER from the LOCAL GOVERNMENT BOARD to the BOARD of GUARDIANS.**

Local Government Board, Dublin,  
8th November, 1875.

SIR,

The Local Government Board for Ireland have had before them the Minutes of Proceedings of the Board of Guardians of the Waterford Union on the 27th ult., when the opinion of counsel upon the subject of the payment of the salaries fixed by order of the Local Government Board was under consideration, and the following resolution was adopted:—

"That this Board of Guardians adheres to its former resolution to pay the salaries of the Sanitary Officers as fixed by themselves."

In reference thereto I am directed to state that the Local Government Board desire to learn whether, in face of the opinion given to them by the learned and eminent counsel whom they have consulted, the Guardians of Waterford Union are prepared to oppose a deliberate resistance to the law.

A specific statement of their intention to do so, or, on the other hand, to pay the Sanitary Officers what they are legally entitled to receive, must be promptly given, if the Guardians have any desire to avoid legal proceedings.

By order of the Board,

B. BANKS, Secretary.

To the Clerk, Waterford Union.

**NO. 8.—EXTRACT from MINUTES of PROCEEDINGS of the BOARD of GUARDIANS, on 1st December, 1875.**

In accordance with his adjourned motion Mr. Barron Newell moved, and Captain Power, v.o., seconded:—

1. That the Order of the Local Government Board be carried out as regards the salaries of our Sanitary Officers to avoid the threatened legal proceedings, at the same time this Board protesting against the arbitrary and coercive policy of the Local Government Board.

To this, the first resolution of Mr. Newell's motion, the Hon. Mr. Fortescue moved, and Alderman St. George Freeman seconded, an amendment.

That all the words in Mr. B. Newell's motion after "Legal proceedings" be postponed and considered in a separate resolution.

Amendment lost on a division by 8 to 4 votes. The original motion then put and carried by 8 to 2 votes.

The second resolution as follows, in the motion by Mr. Newell :—

"That we call on the members of Parliament for the county and city of Waterford to introduce a Bill into Parliament next session to amend and limit the excessive powers of the Local Government Board, particularly as regards the regulation of salaries, this Board considering that from local and personal knowledge, they must be the best judges of suitable amount of salaries," was withdrawn.

## APPENDIX E.

## TABULAR RETURNS IN CONNEXION WITH RELIEF UNDER THE MEDICAL CHARITIES ACT.

[NOTE.—In this series of Tables, the Unions are classed in the Counties and Provinces in which the chief or central place of the respective Unions is situate; but many of the Unions comprise parts of more than one County or Province. The total of Population and Area of the Unions in the respective Counties and Provinces, as arranged in these Tables, will not, therefore, agree with the summaries of those Counties and Provinces in the Census Returns. An Alphabetical Index List of the Dispensary Districts is annexed (No. 5), showing the name of the Union in which each District is situate, and referring to the table and page by which the particulars relating to each District are to be found.]
